## NOW HIRING!

*We are looking to grow our team with energetic new people. Immediate openings for:*

### **MASTER REFINISH TECHNICIAN**

---

#### Job Description

Tired of Inconsistent volumes of work, Poor culture and working environment, sick of low flat rate times and the ups and down pays that go with them. Are you looking for a clean, Professional state of the art facility with the latest equipment and technology? Then give us a call today. We are offering high wage guarantees, employee benefit packages, Paid vacations, and team efficiency bonuses. If you meet these qualifications please contact Dale at 902-488-7325. No Resume NEEDED!\*\*

Licensed Refinish Technician (Auto Body Painter)

The successful Candidate must have experience as a Painter at an Autobody shop. Refinish Technicians do surface preparation, masking, accurate colour matching, priming and top coating. Refinish Technicians also do restoration of anti-corrosion treatments, substrate identification, product mixing and application. The Refinish Technician will also:

- prepare substrate chemically or mechanically (if required by job conditions)
- remove and install bolt-on components such as hoods, deck lids, fenders, trim, doors, glass and interior items
- match colours accurately
- mix and apply refinish **products following the manufacturer's SOP in the correct sequence**, ensuring chemical compatibility, adhesion and durability.

The Refinish Technician requires a valid and clean drivers abstract and must be able to drive standard vehicles.
